

TURN YOUR
SMALL PACKAGE
ORDERS TO PROFITS

For most chemical manufacturers, investing the necessary labor and resources to repackage small orders is cost prohibitive. Our Small Package Sales Program is a turnkey program that makes it easy and profitable to sell small package units of your products directly to end-users.

- Most orders shipped with 24 hours, worldwide
- Hazardous and non-hazardous chemicals
- Integrated credit card web ordering portal

COMPLETE DOOR-TO-DOOR SERVICE

With over 30 years of packaging and shipping expertise, we make sure all shipments are packaged and labeled properly while providing all appropriate documents for hazardous and international shipments. We handle storage, order management, packaging, fulfillment, and everything in-between.

DISCOVER HIDDEN REVENUE

We work as a partner, not a distributor. You set the price for your product, and any revenue in excess of our packaging and shipping expenses is profit to your bottom line.

SCALE UP TO COMPLEX CHEMICAL LOGISTICS

In addition to sample and small order fulfillment, Odyssey is a premier source for complex chemical logistics solutions. Our experience with the unique challenges in the chemical industry is the reason why leading chemical companies rely on us to move their products around the world safely, cost-efficiently and on time.
