

## MULTI-MODAL SOLUTIONS FOR BULK LIQUID FOOD-GRADE PRODUCTS

Odyssey FoodTrans, a subsidiary of Odyssey Logistics & Technology Corporation (Odyssey), is one of the world's leaders in bulk liquid food-grade logistics. We utilize both our advanced fleet of ISO tanks as well as our innovative flexitanks, to safely and efficiently transport bulk liquid foods millions of miles around the globe every year.

The versatility of our customized intermodal service is that it allows for travel by road, rail and sea, enabling us to provide a true Door-to-Done® shipping solution designed to eliminate costly inefficiencies in supply and cold chain management.

### Iso Tank Solution

Odyssey FoodTrans ISO tanks have a loading capacity of 24,000L, while maintaining the dimensions of a 20' box container. We operate a fleet of over 1250 aseptic, refrigerated and superinsulated ISO tanks to carry perishable, temperature-sensitive products over long distances.

All ISO tanks can be equipped, on demand, with:

- Track and trace system
- Product temperature monitoring
- Headspace protection through Nitrogen blanket

### Flexitank Solution

We supplement our ISO Tank capacity with readily available 20' and 40' flexitanks tested for safety and dependability and backed by a company you can trust for complete support from loading to discharge.

Our flexitank solution:

- Passed stringent impact and vibration tests at the TCI [AAR]
- Adds immediate, accessible capacity
- Provides an ongoing focus on sustainability
- Utilizes Odyssey's intermodal network to optimize supply chain efficiency
- Only AAR approved single compartment 40ft flexitank on the market
