

CUSTOMIZED METALS DISTRIBUTION PROGRAMS THROUGHOUT NORTH AMERICA

CMI Logistics, a subsidiary of Odyssey Logistics & Technology Corporation (Odyssey), is the leading intermodal distribution company in the metals industry. Through our strategic network of transload facilities, we design global, customized metals distribution programs.

Services

Customized Intermodal System

- A solution tailored to the individual needs of our clients and their customers and based on shipping frequencies, lot sizes and equipment types.

Warehousing and Distribution

- Our transload facilities are strategically located in major metals-consuming areas and within a day's transit of many others.

International Transportation

- We have the equipment facilities, experience and global reach for international shipment of metal products.

Local Truck Transportation

- CMI's freight-forwarding expertise can streamline your shipping process, avoiding costly penalties and delays.

THE LOAD AND ROLL PALLET (LRP) ADVANTAGE

The LRP provides safe, reliable and damage-free transportation of goods in a closed ocean container by evenly distributing the concentrated weight of the product.

Containers are moved by consistent and regularly scheduled stack trains, offering unparalleled transit times in the intermodal marketplace. The LRP specifications meet the guidelines established by the American Association of Railroads for loading, block and bracing of metal products in closed trailers and containers.

LRP's can move:

- Master Coils
- Bar Stock
- Plate
- Rod/Wire
- Ingot

EXPERTS IN COMPLEX LOGISTICS

Odyssey Logistics & Technology Corporation has a worldwide network of solutions that span multiple transport modes and is backed by the power of our \$3B+ global freight network. When combined with proprietary technology and managed services, our expertise and global presence can solve even the most complex logistical challenges.
