

# Intermodal Rail Transport

Solutions Leader for Containerized Cargo

Odyssey Logistics is a trusted partner to manage import, export, and domestic freight directly through the ports and rail, and across all major ports in the U.S. along with providing land bridge service.

Our full suite of tailored logistics services through a single point of contact also provide rail services for steamship equipment and private equipment, both domestically and internationally, along with offering domestic 53' for intermodal rail shipping in North America.

## Services & Solutions

- |   |  |   |  |
|---|--|---|--|
|  | Door-to-Door, Ramp-to-Door, Ramp-to-Ramp, and Door-to-Ramp intermodal services |  | Accurate, timely rate responses  |
|  | On-dock service to and from ports  |  | Experienced CSR personnel with extensive knowledge in steamship, IMC and trucking industries |
|  | ISO tank and flexitank transport via intermodal rail                           |  | 20', 20' ISO, 40', 45', and 53', both domestically and internationally                       |
|  | Reporting tools available — customized   |  | Expedite program movement  |
|  | Hazardous, oversize and project movements                                      |  | Extensive drayage network  |
|  | EDI load tendering and shipment status reporting                               |  | Relationships with national, regional, and local container yard and depot services           |
|   |  |  | Container recovery services  |

## The Odyssey Advantage

Offers both contractual pricing and spot rates

Pioneered the first independent double-stack service for steamship carriers that did not have internal intermodal departments

One of the largest intermodal rail shippers of ISO tanks and metal coils

Direct contract holders with major Class 1 railroads and relationships with all major ports and equipment providers in North America

## The Advantages of Multimodal Agility

For more than 20 years, Odyssey Logistics has delivered tailored, adaptable multimodal solutions for complex logistics challenges. Backed by a \$3B+ freight network, we leverage technology, data analytics, strategic carrier relationships, specialized assets, sustainability initiatives, and global expertise to create agile, end-to-end supply chains. Integrated work processes, enhanced by real-time reporting and visibility, drive both processes and cost efficiencies, helping your business operate smarter, scale faster, and succeed.
