

Do You Know

How to Simplify Transportation Management

One Platform with Complete Transportation Visibility & Control

Managing freight across multiple modes shouldn't require complex enterprise software or a long implementation. Odyssey Logistics' OnDemand gives mid-sized shippers a secure, centralized transportation management platform to manage LTL, truckload, intermodal, bulk and small parcel shipments from one centralized platform. With Odyssey's carrier expertise, rate intelligence and multi-modal know how built in – we're helping teams ship smarter, from day one.

Services & Solutions

 Improve order accuracy with configurable validations, master data management and standardized workflows

 Apply preferred carriers, pricing rules and route guide logic to support compliant transportation decisions

 Optimize shipments with automated mode, routing and cost recommendations

 Manage spot quotes, compare pricing options and secure competitive market rates

 Tender, dispatch, and track shipments with real-time visibility and proactive status updates

 Generate electronic BOLs, labels and shipping documents to reduce manual work

 Connect with ERP, carrier and external platforms through API and EDI integrations

 Visibility to purchase orders through inbound shipment management

The Odyssey Advantage

Gain greater visibility and control across inbound, outbound and multimodal transportation

Reduce manual processes and improve consistency across teams and business units

Leverage Odyssey's carrier expertise and rate intelligence to make smarter shipping decisions

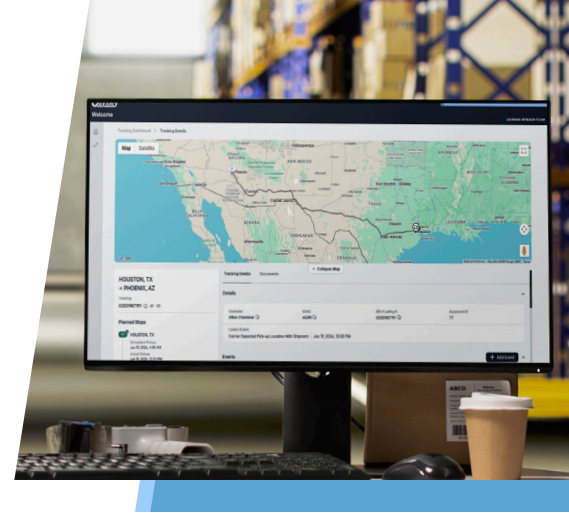

Access dashboards and reporting tools for insights into spend, carrier performance and operational trends

Support adoption with role-based access, onboarding resources and training support

Scale transportation management without the complexity of traditional enterprise software

The Advantages of Multimodal Agility

For more than 20 years, Odyssey Logistics has delivered tailored, adaptable multimodal solutions for complex logistics challenges. Backed by a \$3B+ freight network, we leverage technology, data analytics, strategic carrier relationships, specialized assets, sustainability initiatives, and global expertise to create agile, end-to-end supply chains. Integrated work processes, enhanced by real-time reporting and visibility, drive both processes and cost efficiencies, helping your business operate smarter, scale faster, and succeed.
